Water Environment Research

Subject/Author Index, Vol. 73 (2001)

Activated sludge,
cation effects 30
effect of ammonium on settling 409
filamentous bulking test 237
sequencing batch reactor optimization 146

Adsorption,
chromium (III) recovery 322

Adsorption,
metals removal using peat 351

Aeration,
oxygen mass-transfer curves 266

Agricultural runoff,
sediment control 590

Aircraft deicing fluid,
anaerobic digestion 72
codigestion with sludge 645

Aitken, M.D.,
pesticide biodegradation 15

Ali, H.I.,
phenol removal from refinery wastewater 165

Alkaline phosphatase activity,
in hypereutrophic reservoir 132

Allen, H.E.,
trace metals in power plants 24

Allen, S.J.,
metals adsorption using peat 351

Alum sludge,
characterization 52

Alves, M.M.,
oleic acid degradation 612

Amblard, C.,
alkaline phosphatase activity in reservoir 132

Ammonia,
pharmaceutical waste pretreatment 192

Amornkaew, A.,
starch wastewater treatment 622

Anaerobic digestion,
aircraft deicing fluid 72
codigestion of aircraft deicing fluid and sludge 645
effect on dewatering properties 444
microbial population determination 684
modeling of microbial products 173
temperature-phased and two-phase comparison 314

Anaerobic filters,
oleic acid degradation 612

Anaerobic migrating blanket reactor,
low-strength wastewater treatment 567

Anaerobic sludge blanket reactor,
septage treatment 404

Anaerobic treatment,
aircraft deicing fluid 72
biological sulfate reduction 118
brewery wastewater 45
fishery effluents 154
meat processing wastewater 142
migrating blanket reactor 567
pulp and paper mill condensates 103
septage 404
starch wastewater 622

Analysis/analytical methods,
chemical oxygen demand analysis 63
digester microbial population determination 684
headspace biochemical oxygen demand test 58
polymerase chain reaction 461

Angenent, L.T.,
anaerobic treatment 567

Annachhatre, A.P.,
biological sulfate reduction 118
starch wastewater treatment 622

Aravind, U.K.,
hydroxyl radical rate constant determination 243

Aravindakumar, C.T.,
hydroxyl radical rate constant determination 243

Armstrong, N.E.,
water quality modeling (editorial) 131

Ashbolt, N.J.,
microbial risk assessment from wastewater irrigation 667

Aspé, E.,
anaerobic treatment of fishery effluents 154

Axler, R.,
pathogen removal in-site systems 204

Ayoub, G.M.,
phosphorus removal by coated filter media 478

Babcock, R.W.,
biodegradable dissolved organic carbon method 517

Bacteria filtration,
marshland upwelling system 339

Bacterial seeding,
biosolids and ash cocomposting 633

Banik, G.C.,
anaerobic treatment 567

Barker, D.J.,
anaerobic digestion modeling 173

Basta, N.T.,
drinking water residuals characterization 52

Bauder, J.W.,
sediment control 590

Bennett, D.,
polymer effect on biosolids. 363

Bewtra, J.K.,
phenol removal in refinery wastewater 165

Biesterfeld, S.,
nitrifying bacterial population quantification. 329

Bioavailability,
pesticides 15

Biochemical oxygen demand,
headspace test. 58

Biodegradable dissolved organic carbon method,
treatment performance assessment 517

Biodegradation,
pesticides 15

Biofilm processes,
oxidation–reduction potential stratification 368

Biofilters,
treatment of air discharges 428

Biological excess phosphorus removal,
effect of pH 213, 223
effects of equalization. 276

Biological phosphorus removal,
cellular energy synthesis. 436
feasibility test 374
process kinetics. 704

Biological retention,
urban stormwater management 5

Biosolids,
bacterial indicators for stabilization 607
cocomposting with coal fly ash. 633
metal mobility in glaciated soils. 80
odor sorption. 388
polymer effect on odor emissions. 363

Bishop, P.L.,
oxidation–reduction potential stratification
in biofilms. 368

Biswas, N.,
phenol removal in refinery wastewater 165

Bivins, J.L.,
temperature-phased anaerobic digestion 444

Blum, M.S.,
pulp and paper mill condensate treatment. 103

Boyles, W.T.,
chemical oxygen demand analysis 63

Brayton, S.V.,
chemical oxygen demand analysis 63

Brewery wastewater,
sequencing batch reactor treatment. 45

Brito, A.G.,
brewery wastewater treatment. 45

Brown, P.,
metals adsorption using peat. 351

Buckley, J.A.,
statistical outlier analysis 575

Burken, J.,
metals removal in constructed wetlands 37

Cabooter, S.,
filamentous bulking test 237

Carbon metabolism,
enhanced biological phosphorus removal 295

Cassidy, D.P.,
biological slurry reactor treatment 87

Cations,
effect on activated-sludge effluent quality. 30

Cellular energy synthesis,
biological phosphorus removal 436

Chang, C.-H.,
septage treatment 404

Chang, F.-Y.,
septage treatment 404
